Product Description

The Corvette C8.R as a pace carBased on the superstar of the GT series, the DIGITAL 132 Chevrolet Corvette C8.R pace car delights with its streamlined design and eye-catching roof lights. The Corvette C8.R is considered one of the most powerful GT cars of all time. A special highlight of the Corvette is the inimitable sound of the naturally aspirated V8 engine with 5.5 litres capacity. The impressive rumble makes the starting field sit up and take notice. As a pace car, it is up to this car to indicate the race speed - clearly a job for you at the hand controller.

With the Corvette C8.R Pace Car you set the paceThe Carrera Evolution Chevrolet Corvette C8.R Pace Car impresses with front and rear lights as well as brake lights and indicators. The 1:32 scale Corvette can be individually coded, digitally controlled and offers unmistakable driving fun for everyone.
