Product Description

Cluedo Junior, board game, for 2-6 players, from 4 years (DE edition)

With Cluedo Junior, even preschoolers can show whether they are good detectives. It offers 2 levels of play and grows with the children. It is suitable for sleuths from 4 years and contains a double-sided game board with 2 game levels. In level 1, the kids pull together to solve the mystery in the playground. Here, someone has accidentally packed an object in their rucksack. Now it's up to the children to explore the playground and look for clues. Only together can they find out which object has disappeared and who stole it. When the junior detectives are ready for a bigger task, the board is turned over and the laboratory puzzle (level 2) appears. The aim here is to find out who caused the volcano to erupt, what it was done with and where the culprit should have been. This Cluedo Junior game is suitable for 2 - 6 players and is made for a great time with the family - a great gift for children and families.
