Product Description

The Ford Capri Zakspeed Turbo was an attention-getter in the 70s. The icon from the Eifel was not only convincing on the technical front, the advanced design could also visually inspire fans and spectators at all times. The symmetrical pattern of yellow, green and black checks made the racing car a real eye-catcher on the track. With this Ford Capri Zakspeed Turbo, German racing driver Jürgen Hamelmann celebrated his greatest success in motorsport in 1981. As a supporting sponsor, the lubricant manufacturer "Pentosin" invested in the stand-out racing car of the Jürgen Hamelmann team and is integrated in the design of the car with its logo. All in all, he came third five times and fourth four times in this season in question and scored a total of 100 points. The racing car will certainly be remembered for its eye-catching design.

The Ford Capri Turbo from the Zakspeed racing team will also be an eye-catcher on your track. The racing car on a scale of 1:24 not only shines with its paint, but also with its front and rear lights and brake lights. The slot car can be individually coded so that you can get the best out of you and your vehicle. The Ford Capri Turbo is also digitally controllable. Notsuitable for children under 36 months. Legal minimum age: 10
