Product Description

In SET® all players play at the same time. Who is the fastest and first to find a SET in the card display on the table? To do this, the symbols on three cards must have the right colour, shape, filling and number. Whoever discovers a SET may take the cards as a reward. A total of three rounds are played. The winner is the one who has the most cards at the end.

SET® mini - the shortened version now for your pocket!
