Product Description

V-shaped daytime running lights - The distinctive look of the Volvo FH series.

Reproduces the original headlamp illumination in the model. When the light is deactivated, the V-shaped daytime running light shines with 100% brightness, but when the low beam is activated, the brightness is reduced to 25%. To avoid stray light one housing each is included in the circuit board set.

Not compatible with TAMIYA MFC-01/MFC-03.

Suitable for the following TAMIYA truck models:

- 300056360 1:14 RC Volvo FH16 Wooden Transporter

Not suitable for children under 36 months.

- 1 set (1 each left and right board)
