from **34,45 EUR**

Item no.: 339282
shipping weight: 0.50 kg
Manufacturer: Feldherr

Product Description

Organizer + Foam Tray Set for Tainted Grail: The Fall of Avalon, Core Game Box

A stunning artwork, wonderfully detailed miniatures and deep, legendary stories about Avalon, Arthur and the Wyrdness - the best prerequisites for epic game nights. Magic, monsters and myths will take everything from you and your fellow players. Fortunately you will get support from us.

With this Feldherr board game box insert, specially designed for the "Tainted Grail" Core Game, you don't have to choose which skill to use - strength or brains. The foam protects your heroes so they are always ready to fight. The card and token holders keep everything in order so you're ready to play at all times.

- The set fits exactly into the original board game box for the "Tainted Grail: The Fall of Avalon" core game from Awaken Realms.
- A foam insert offers space for all 8 figures of the base game. Plus an additional compartment for the 5th Traveller Niamh.
- Four plastic card holders help you to sort the cards. All cards also fit with sleeves.
- A plastic token holder ensures that no token or marker gets lost.
- The Character Tiles and the paper components (Starting Letters, Adventure Maps, Save Sheets, Exploration Journal, Open & Play Guide, and the Rulebook) are stored separately.

For Beor, Ailei, Arev, Maggot, as well as fifth heroine in the bunch, Niamh, five compartments are reserved on the foam insert. Also, the three Menhir models and the Fore-Dweller are each assigned an individually tailored compartment. The custom-fit cut helps with sorting and also ensures that nothing slips around on the way. The sensitive parts of the figures are thus optimally protected against damage. If you paint your models, you can be assured that the colors are still unharmed after transport.

Two compartments remain, here you can keep the discs and the health indicators, for example.

After the miniatures are taken care of, we deal with the game material.

Right next to the foam insert, you place the two card holders for the Standard Cards and the card holder for the Oversized Cards. Here you can neatly store the Encounter Cards, Event Cards and all other Standard Cards before and after the game. The Locations and Help Cards are placed in the large plastic holder next to it.

Because the small cards still need a place, you will get a card holder made of robust plastic for them, too. You place it on top of the foam insert, which you covered with the matching foam topper before.

All cards also fit with sleeves.

Now you can place the Character Tiles between the cardholders without them slipping around during transport. On top of this you pack the second foam topper and the Paper Components (Starting Letters, Adventure Maps, Save Sheets, Exploration Journal).

The token holder fills the last free gap in this package. Here you sort the markers, tokens, and the dice. You can simply place the box on the table at the beginning of each game. After everything is in place, cover the whole thing with the third foam topper. Upon that you put the Open & Play Guide and the Rulebook. All miniatures are safely stowed away and all game material is neatly stored. You are now prepared for any adversity.

As with all 3D-printed models, minor imperfections may occur. The product images are only examples of how the finished product may look. Colors may vary. All products are delivered unpainted.

Attention! Not suitable for children under 36 months.

The value set contains:

- 1x foam tray for miniatures and game material
- 2x card holders for Standard Cards (60413)
- 1x card holder for Oversized Cards (60414)
- 1x card holder for Small Cards (60415)
