Product Description

A massive meteorite has struck near the Tunguska River in Siberia, revealing an ancient corruption. To learn more about the meteorite and its effects on the land, Dr. Tatkovskij sets out with an expedition into the taiga. You, as heroes of war, are on the lookout for new adventures and therefore finance private expeditions to Siberia, always in search of artefacts, challenges and new fame.

In this competitive, card-driven exploration game, 1 to 5 players build their own card engine within approx. 60-90 minutes. To do this, you play cards that give you strength, cunning and worker abilities. With your mech you move to mysterious places or upgrade it with the help of your workers, artefacts, meteorites and orders.
