Product Description

Who is the mastermind at cracking the secret code? In Mastermind, the exciting game for families and children aged 8 and up, a brainteaser duel takes place when one player competes as the code setter and the code breaker opposes him. With more than 55 million units sold, this brilliant strategy game is one of the most popular games ever. As the code-setter, one player uses his pens to set a secret code that is as clever as possible and keeps the code-breaker in the dark for as long as possible. Then his fellow player brings logical thinking and memory into play to decipher the code. Then the roles are reversed. Who manages to crack a code in as few attempts as possible? This transportable game comes in a practical storage box so that the fun can continue on the go. Classic board games make excellent gifts for families and children. Hasbro Gaming and all associated trademarks and logos are trademarks of Hasbro, Inc.

Caution: Not suitable for children under 36 months.

- Age: from 8 years
