Product Description

The floor model is a replica of the Nissan GT-R, which was presented at the Tokyo Motor Show 2007. This model had dropped the Skyline name and simply became the Nissan GT-R. Besides the name change, the car also had some other mechanical changes, especially under the bonnet. Gone is the Straight Six and in its place is a new twin-turbo V6 with an astonishing 480bhp and 60kg of torque. With amazing speed and cornering ability, the GT-R has reached the supercar plateau. The TAMIYA model kit version impresses with high fitting accuracy as well as attention to detail. Caution! Not suitable for children under 14 years.

- Scale 1:24- Recommended age: 14 years and up- Length: 197 mm- Contents: road vehicle, engine, decoration- The high-quality kit from TAMIYA has to be assembled by yourself.- The independent assembly is accompanied by step-by-step or illustrated assembly instructions. - The assembly instructions are of course included in the delivery.- Based on the assembly instructions, the precisely fitting individual parts must be assembled. - The parts can be painted according to your own ideas.- Tools, glue and paint are not included in the plastic kit. These must be purchased as an option.
