from **20,70 EUR**

Item no.: 371189
 shipping weight: 0.80 kg
 Manufacturer: Hasbro Gaming

Product Description

Monopoly Junior 2-in-1 is a game for little merchants that grows with them! The double-sided game board offers 2 levels of play so families can choose just the right game for them. Level 1 is suitable for children aged 4-5 and helps them practise matching and counting as they count off tiles, match pictures and buy plots. The player with the most plots wins! Ready for the next level? Just flip the game board over to the level 2 side, which promotes literacy and simple numeracy skills for children 6 and up. Here, child-friendly fields can be found, plots can be bought and rent can be collected! The player with the most money wins the game. Different play money, cards and rules are used for each level of play. There are 6 cute play figures to choose from: penguin, car, squeaking duck, dog, cat and the little T-Rex. A varied preschool game for children's visits and play afternoons.

The titles Hasbro, Hasbro Gaming and Monopoly as well as the associated logos, the design of the game board, the four corner squares, the name and figure of Mr. Monopoly and all elements of the game board and game accessories are registered trademarks of Hasbro, Inc. for the Monopoly company game including game equipment.

Caution: not suitable for children under 36 months!
