Product Description

The floor model is a replica of the Junkers JU-87B Stuka Bat. O Brit. The Junkers Ju 87 Stuka was a two-seat dive bomber / ground attack aircraft. It first flew in 1935 and made its combat debut in 1936 as part of the Condor Legion during the Spanish Civil War. The aircraft was easily recognisable by its inverted gull wings and fixed landing gear. The Stuka's design included several innovative features, including automatic pull-up dive brakes under both wings to ensure the aircraft recovered from its attack dive, even if the pilot was blacked out from acceleration. In the early stages of the Second World War, it soon became the legendary aircraft of the German Blitzkrieg, where it provided close support to the Wehrmacht's armoured divisions. It was also used by the Luftwaffe during the Battle of Britain, where its weaknesses became apparent when compared to the faster and better armed, more modern fighters such as the Hurricane and Spitfire.
