Product Description

Turn and tilt the dice in the way that suits you best... The dice game for people with dice luck!

Everyone has their own playing block on which they mark off their results. Together you tilt and push the dice over the playing field and try to be the first to reach 3 Drebos. Every time you roll the dice, you can cross off a square on your block that corresponds to the colour and number of the dice square. There are row and colour combos. To do this, you must either have 5 crosses in a horizontal, vertical or diagonal row, or have 5 crossed squares of the same colour. You must announce each drebo aloud and mark it on your game board. It is customary to show more enthusiasm with each additional Drebo, to shout louder and finally even to jump up!

Drebo is an entertaining dice game for the whole family. With 8 different blocks and 2 game boards, it can be combined again and again. Due to high interactivity there is no waiting time during the moves of the others.

Attention: not suitable for children under 36 months!
