### Product Description

In the 4X Eurogame Anunnaki: Twilight of the Gods, players take on the role of gods from various mythologies. By building settlements, recruiting followers and researching technologies, the aim is to expand their influence on their own and other planets. In doing so, it is important to always keep an eye on the management of one's own actions via the innovative, star-shaped action selection system. Due to the asymmetrical faction abilities, the random construction of the star actions and the renunciation of luck elements, Anunnaki: Twilight of the Gods is a game for every expert's shelf.

Caution! Not suitable for children under 36 months.

- Number: for 1-4 players
- Age: from 13 years
- Duration: 90 minutes
