

Item no.: 370853

## Model part,1:14 aluminium front wheel rim wide/round (2)

from **61,95 EUR**

Item no.: 370853  
shipping weight: 0.20 kg  
Manufacturer: Carson

### Product Description

Even closer to the original... This front wheel rim has a timeless round hole design, wheel bolts and a hub cap. The hub cap covers the fixing stop nut. Furthermore, the front wheel rim offers an accommodation for two ball bearings of the size 5 x 11 x 4 mm. These aluminium front wheel rims replace the plastic rims included in the construction kit. In combination with the wheel stud set 500907158 this aluminium front wheel rim can also be used as a trailer rim wide.

For easy mounting of the stud bolts we recommend the socket spanner 500907595.

Suitable for the following tyres: TAMIYA kit tyres - wide version: 300056528, 309808176; CARSON tyres - wide version: 500907012, 500907612.

Further rims in round hole design

For front axle - narrow version 500907477 1:14 Alloy wheel set front axle round hole (2) narrow/without (ball bearing 5x11x4mm) 500907159 1:14 Alloy wheel set front axle round hole (2) wide/with without (ball bearing 5x11x4mm)

For front axle - wide version 500907272 1:14 Alloy wheel set front axle round hole (2) narrow/driven (12mm hexagon) 500907278 1:14 Alloy wheel set front axle round hole (2) wide/driven (12mm hexagon)

For rear axle 500907160 1:14 Alloy wheel set rear axle round hole (2) driven (12mm hexagon)

For CARSON semitrailers/trailers 500907040 1:14 Alloy semitrailer rims set round hole (2) wide/driven (ball bearing 5x11x4mm) 500907159\* 1:14 Alloy rims set front axle round hole (2) wide/driven (ball bearing 5x11x4mm)\* For semitrailers or trailers only usable in combination with the wheel bolt set item no.: 500907158.
