510003887 - Model Kit,1:24 20ft Container Trailer

from **40,08 EUR**

Item no.: 370715
shipping weight: 1.00 kg
Manufacturer: ITALERI

Product Description

The floor model is a replica of a 20' container trailer. Our trailer for 20' containers or swap bodies was developed to optimise the logistics of road transport. It is inspired by the FCT (fixed container transport) model manufactured by Tecnokar, leader in the production and distribution of high quality semi-trailers since 1986 Carefully built structure that provides the right balance between stability, robustness and durability.

The fixed container transport chassis is a steel Hbeam chassis with a 2' fifth wheel kingpin, Jost dual speed retractable swing rails and twist arms with galvanised swivels. It is also equipped with basic ADR equipment.

Caution. Not intended for children under 36 months.
