Product Description

Voidfall is a 4X space game that brings the genre to the tables of Eurogame enthusiasts. It combines the excitement, player interaction and deep customisation of the 4X genre with resource management, decision-making and the low-happiness gameplay of an economic Euro. Variety is provided not only by the many playable houses with their own strengths and weaknesses, but also by the many different maps for all game modes.

As the leader of a rebellious Great House, you go through three cycles, each with a game-changing galactic event, a new scoring condition and a number of focus cards that can be played. The choice of focus cards and their order is at the heart of the gameplay. Rather than relying on the luck of a dice roll, the battles in Voidfall are completely deterministic, rewarding careful preparation and outsmarting your opponents.

Caution. Not suitable for children under 36 months!

- Age: from 12 years
- Number: for 1-4 players
- Duration: 45-180 minutes
