from **25,75 EUR**

Item no.: 370772
shipping weight: 1.00 kg
Manufacturer: ITALERI

Product Description

The floor model is a replica of the Mercedes Benz SL 300 Gull Wing. The Mercedes-Benz 300 SL was produced by the German car manufacturer in 1954 and is a masterpiece on four wheels for design, elegance and luxury. The 300 SL, whose acronym stands for Sport Leicht, introduced innovative solutions for the time.

The two-door Mercedes coupé had a tubular frame, a front 2.996 cc longitudinal engine linked to a 4-speed gearbox, and the rear drive. The top speed of 300 SL was 260 km / h. However, the real strength of the car lay in its innovative design and the adoption of the characteristic and eye-catching gullwing doors. Even today, the Mercedes-Benz 300 SL is an icon of the design and style of the time and a true icon for collectors and fans.

Caution! Not suitable for children under 36 months.
