Product Description

The Toyota GT86, released in April 2012, is a lightweight sports car with a front engine and rear-wheel drive. The sports coupé was developed jointly by Toyota and Subaru in a cooperation, Subaru launched the GT86 under the name BZR. The four-seater is powered by a 147 kW (approx. 200 hp) 2.0-litre boxer four-cylinder engine with Toyota's D-4S direct injection technology. The technical basis for the vehicle is a modified Subaru platform of the fourth-generation Impreza. The Tamiya 1:24 scale kit recreates the dynamic shape of the sports car, the engine compartment, the underbody with parts of the suspension and the drive train as well as numerous other true-to-the-original details. The metal-coated headlights and tail lights provide a visual highlight.
