Product Description

The floor model is a replica of the A-10 Gulf War. The A-10 Thunderbolt II was developed by Fairchild Republic in the 1970s with the aim of creating a powerful aircraft capable of air support missions, including attacking tanks and armoured vehicles, in accordance with USAF requirements. The Thunderbolt II is heavily armoured and exceptionally robust. It features General Electric's twin turbofan engines and the introduction of one of the most powerful aircraft cannons ever flown: the 30mm cannon. GAU-8 / A Avenger Gatling. Thanks to its eleven underwing and fuselage pillars, the A-10 can carry an impressive offensive payload. The A-10 was first used in combat during the 1991 Gulf War and demonstrated its operational effectiveness in destroying more than 900 enemy tanks.
