300060741 - Model kit,1:72 Skyray

from **10,01 EUR**

Item no.: 369483
shipping weight: 0.50 kg
Manufacturer: TAMIYA

Product Description

The floor model is a replica of the Douglas F4D Skyray developed on the basis of information held by US forces. This was the only operational interceptor with delta wings in the US Navy. The first prototype of the F4D took off on its maiden flight in 1951. The Skyray immediately set new standards in 1953 with a top speed of 1,211 Km/h. With numerous improvements, the F4D-1 variant then joined the squadron in June 1954. The distinctive 50-degree swept wing with round tips was fitted with leading edge slats and trailing edge lifts. Caution! Not suitable for children under 14 years.

- Recommended age: 14 years and up- Detailed model kit in the scale of 1:72- Wingspan 141 mm- Length 190 mm- The high-quality kit from TAMIYA must be assembled independently.- The independent assembly is accompanied by step-by-step or illustrated assembly instructions. The assembly instructions are of course included in the delivery.- Based on the assembly instructions, the precisely fitting individual parts must be assembled. The parts can be painted according to your own ideas.- Tools, glue and paint are not included in the scope of delivery of the plastic kit. These must be purchased optionally.- Contents: Kit model, instructions, decoration.
