from **45,48 EUR**

Item no.: 370745
shipping weight: 1.00 kg
Manufacturer: TAMIYA

Product Description

The floor model is a replica of the first car from the 2017 newly founded brand of former Formula 1 acquaintance Gordon Murray. The T.50 mainly impresses with its aerodynamic shape, as well as a high amount of carbon parts to keep the weight minimal. With a 3.9 litre twelve-cylinder engine, the T.50 produces 670 hp. The centrally placed cockpit gives the driver optimum visibility, as well as a Formula 1 flavour. The vehicle was limited to a production of 100 units. The floor model impresses above all with its accurate fit and a high level of detail.

- Scale: 1:24- Recommended age: 14 years and up- Length: 181 mm- Width: 77,1 mm- Height: 48,5 mm- Contents: Kit model, replica of the V12 engine, photo-etched parts included- unique, aerodynamic shape of the GMA T.50 has been accurately reproduced- V12 engine designed by Cosworth- engine cover can be built open or closed- photo-etched parts included- true to original springs and dampers- new rims and rubber tyres- decals included- tools and paints required for assembly (sold separately).
