Product Description

An unspeakable evil - the darkness - spreads across the land and brings ruin, terror and death. Together as a group of up to 5 heroines, the players must face the enemies and dangers in a dark world. What is the darkness all about and where does it come from? Only the group can save Daren from sinking into darkness.

Chronicles of Drunagor is a cooperative dungeon crawler. As a group of heroines, the players have to go through a series of nerve-racking adventures together. They travel the continent of Daren, which is threatened by dark forces. In each adventure, they enter a three-dimensional dungeon, which they gradually explore. As they move through the terrain, they fight increasingly powerful monsters, enter new areas with unknown dangers and can find legendary treasures. The greatest challenge, however, is posed by the particularly powerful boss opponents.

On their long journey through Daren, the players experience a varied story, meet different characters and have to make important decisions again and again, which significantly influence their heroines and the story.

Caution! Not suitable for children under 36 months.

- Age: from 12 years
- Number: for 1-5 players
- Duration: 25-125 minutes
