Product Description

The floor model is a replica of the Alfa Romeo Giulietta Spider 1300. In 1962, the Alfa Romeo Giulietta Spider evolved further with some aesthetic improvements to the body, some interior details and the new 1,570 cm³ four-cylinder engine capable of producing 92 hp. Thanks to the new engine, the Italian car could reach the top speed of 172 km/h. The mechanical equipment was based on the rear wheel drive and the four independent wheel suspensions. The sports version "Veloce" was able to offer customers a powerful 112 hp engine with two carburetors and the introduction of disc brakes on the front wheels.
