Product Description

The floor model is a replica of the Iveco HI-WY E5 "Abarth". The Stralis Hi-Way is the latest evolution of Iveco's famous heavy-duty truck. The Stralis Hi-Way features several technological and aesthetic improvements over previous versions. The cabin offers a completely new design and is equipped with integrated electronic systems that optimise on-board comfort and provide the highest safety standards.

The development of the Stralis is also characterised by an all-new "powertrain" that can minimise fuel consumption and maintenance costs. In 2013, Iveco Stralis Hi-Way won the "International Truck of the Year" award given by a pool of journalists from the most important European truck magazines.
