Product Description

The Focke-Wulf Fw-30 Heuschrecke was a German reconnaissance gyroplane (gyrocopter) from the interwar period and World War II. The length of this aircraft was 6 metres with a main rotor diameter of about 11.3 metres. The take-off weight of the machine did not exceed 730 kg. Propulsion was provided by a single 7-cylinder Siemens Sh 14A engine with 140 hp. The aircraft had no permanent on-board armament.

Caution: Not suitable for children under 3 years. Danger of suffocation due to small parts.

- Scale: 1:35
- Contents: Kit model, photo-etched parts, opening doors, instructions, decoration
- from 14 years
