

Item no.: 370950

## Model Kit,1:14 MFC-03 Truck Multifunction Unit

from **392,41 EUR**

Item no.: 370950  
shipping weight: 0.20 kg  
Manufacturer: TAMIYA

### Product Description

The TAMIYA multifunction unit MFC-03 Euro-Style simulates almost all sound and light functions of the big role models in truck models. It perfectly complements TAMIYA models such as the MAN TGX, Mercedes Benz Actros, Scania R470 and others with the sound recorded on a European in-line six-cylinder diesel engine.

The function and control unit, a speed controller is also included, has 33 realistic sound options, numerous light options and up to 21 function options for 1/14th scale model tractors and others. All functions are operated by a standard 4-channel remote control.

The MFC-03 Euro-style multi-function unit can be used in three modes. Driving mode with and without lights and sound as well as a demo mode showing sound and light functions.

We recommend the use of a CARSON R/C system:

REFLEX Stick 6-channel (item no. 500501006) REFLEX Stick 14-channel (item no. 500501003) REFLEX Stick 14-channel LCD (item no. 500501004)

Not suitable for children under 14 years of age.

Technical details

Age recommendation: from 14 years

The following functions can be simulated with the multifunction unit.

**Sounds** Acoustic signal, starting the engine, idling, parking brake, driving with and without trailer, coupling, uncoupling, shifting into a higher gear, shifting into a lower gear, air pressure brake (1), air brake (2), brake bleeding, brake, horn (short), horn (long), indicator (1), indicator (2), hazard warning lights, reversing, air release, engine shutdown, announcement when battery power is low.

**Light functions** Headlights, fog lights, position lights (parking lights), roof auxiliary lights (partly only with optional roof light bracket), gear indicator (only with roof lights), turn signals, hazard warning lights, brake lights, reversing lights  
**Driving and control functions** Electronic driving controller with low speed + brake, vibration function (wobbling of the cab), control of the outrigger.

**Functions on unit** On/off switch, light function selector switch, roof lamp function selector switch (roof lamp or gear indicator), indicator function selector switch (indicator or hazard warning lights), volume control

**Option** In use with the optionally available motorised trailer supports N° 300056505, trailers can be coupled and uncoupled remotely.
