300061124 - Model Kit, 1:48 US F-35A Lightning II

from **74,79 EUR**

Item no.: 370018
shipping weight: 0.80 kg
Manufacturer: TAMIYA

Product Description

A real highlight from TAMIYA in the field of 1:48 aircraft models: The Lockheed Martin® F-35®A Lightning II®! The model is a complete mould novelty and in-house development by TAMIYA. The aim was to create the most detailed model of this aircraft in 1/48th scale. The F-35 is available in three versions: A for the Air Force, B for the Marines and C for the Navy. It was developed under the JSF (Joint Strike Fighter Program) and the F-35 was intended to be the fifth generation of fighter jets. The aircraft has a sophisticated stealth design, a state-of-the-art network and countless sensors that provide all the data for the pilot and computer. The F-35 entered service in 2015 and there are now 3,000 F-35s planned for use in many different countries.

Accessories needed: Glue, paint for varnishing and painting, tools.

Not suitable for children under 36 months.

- Age recommendation: from 14 years
- Scale: 1:48
- Wingspan: 222mm
- Length: 326mm
- The unique shape and characteristic Stealth design has been accurately reproduced
- Realistic radar absorbed material (RAM)
- Model can be built in 3 different weapon configurations: Stealth Mode, Air-to-Air Mode and Beast Mode
- The model has particularly faithfully reproduced sections:
- Weapon bay incl. ducts, landing gear bays, cockpit, nozzle, Martin-Baker US16E ejection seat (multi-piece), ladder, Y-shape air intakes, 5-piece engine nozzle, RCS radar, and much more
- Weapon bays can be built open or closed
- Includes seated pilot figure with Helmet-Mounted Display (HMD) and various weapons: AIM-9X Sidewinder, AIM-120C AMRAAM, GBU-12 Paveway II, GBU-31 JDAM
- Transparent parts for sensor windows
- The model can be built in nine different identifications: U.S. Air Force, Japan Air Self-Defense Force, Royal Norwegian Air Force, Royal Danish Air Force, Royal Australian Air Force, Israeli Air Force, Italian Air Force, Republic of Korea Air Force, and Royal Netherlands Air Force. (Also, drag chute fairing component is included only for the Royal Norwegian Air Force)
- Includes masking film for painting and a coloured painting template
- glue, tools and paint are required for assembly
- Contents: Kit model, 2 canopies open/closed, 1 figure included, instructions
