from **27,76 EUR**

Item no.: 370761
shipping weight: 1.00 kg
Manufacturer: ITALERI

Product Description

The floor model is a replica of the Land Rover Fire Truck. The "Land Rover" was certainly one of the most famous symbols of automobile production "Made in England" and is a real milestone in the history of off-road vehicles. It was born immediately after the war with the first prototypes realised in 1947. It features the 4x4 traction system and a robust and reliable design that can handle the most difficult and challenging trails. The aluminium body offers lightness with greater corrosion resistance and is more durable over time. In 1971, when the III Series was introduced, more than 1,000,000 Land Rovers were produced. Available in two versions: the "standard" and the "long wheelbase". Thanks to its exceptional versatility, it was used in both military and civilian applications. Interesting are the versions that were realised for the fire brigades and produced with the fire fighting equipment.

- Detailed model kit in 1:24 scale
- The high quality kit from Italeri has to be assembled by yourself
- The self-assembly is accompanied by step-by-step or illustrated assembly instructions. The assembly instructions are of course included in the delivery
