from **58,14 EUR**

Item no.: 370956
shipping weight: 0.20 kg
Manufacturer: Carson

Product Description

To make your trailer even more true to the original, we offer you a pallet box with 6 pallets. The assembly of the pallet box is quite simple, in the kit all parts are already pre-milled in the frame. As assembly adhesive we recommend a plastic adhesive for polystyrene or a commercially available superglue. The assembly of the pallet box can be carried out on the following CARSON trailers without any problems, the required drillings are already available on the frame. The pallet box can hold a maximum of 12 pallets per side and the flaps can be opened prototypically. For additional functions/controls, the space can also be used as storage space for electronic components or as a power supply compartment. An aluminium version of the pallet box, for all enthusiasts who want even more, is available under item no. 500907379.

Suitable for the following CARSON trailers: 500907030 1:14 3-axle trailer chassis Ver.II (Optional) 500907082 1:14 3-axle wooden/stake trailer Ver.II (Optional) 500907081 1:14 3-axle flatbed trailer Ver.II (Optional) 500907235 1:14 3-axle Fliegl Megarunner tarpaulin red (Optional) 500907092 1:14 3-axle box trailer Ver.II white (Spare part)

If required, further pallets are available 500907049 1:14 Euro pallet set (5) plastic/beige 500907608 1:14 Wood EPAL Euro pallet
Not suitable for children under 3 years. Choking hazard due to small parts.
