510002746 - Model Kit,1:48 Hercules C-130J C5

from **61,65 EUR**

Item no.: 369962
shipping weight: 0.80 kg
Manufacturer: ITALERI

Product Description

The floor model is a recreation of the Hercules C-130J C5 aircraft. While the C-130J retains the familiar lines of the Hercules, which has been common in the skies of the world for decades, it has been extensively redesigned. The most visible change is the use of twin 4700hp Rolls-Royce (Allison) AE2100D3 engines with six-bladed composite propellers for quiet operation and low fuel consumption. High-performance features include an excellent rate of climb and an extended range of action thanks to the new engines. An equally important development is the avionics: the cockpit is equipped with new digital instruments and a head-up display that provides the pilot with a constant stream of data without having to look away from the cockpit window. The C-130J is becoming the standard transport aircraft in many NATO countries, including Italy.

Caution: Not suitable for children under 36 months. Choking hazard due to small parts.

Technical details:

- Scale 1:48
- length: 62,1 cm
- not pre-assembled
- not painted
- age recommendation: from 14 years

Scope of delivery:

- Kit on photo-etched parts
- many decals and decorations
- Step by step installation instructions incl. pictures

Attention: Additional tools, glue and paints may be required and are not included in the scope of delivery. These must be purchased optionally. The parts can be painted according to your own ideas.
