Product Description

Due to the huge distances that Australian truckers have to cover, sometimes on the worst roads, their trucks are equipped with a lot of special equipment. An absolute must is the enormous Roo-Bar (from kangaroo) or Cow-Catcher at the front, furthermore windscreen guards, special sand filters, additional tanks, air conditioning and of course all kinds of headlights. On long distances, it is usually driven as a "road train" with up to 3 trailers and a length of over 31 metres. Our "Western Star" is equipped with right-hand drive as a special feature.

Notsuitable for children under 36 months. Danger of suffocation due to small parts.
