Product Description

The story of treachery and unrest in the Elven Kingdom continues in the HeroQuest expansion "The Moon of Terror". A brave knight joins the Heroes to finally free Elethorn from Zargon's dark clutches. Here, players face exciting challenges as they seek the help of the Raven Veil cadre to stop Zargon's forces from destroying the kingdom. There is a maze of waterways in an underground city to traverse. But Zargon's forces grow stronger as the Moon of Terror rises. The pack contains 29 miniatures, coloured markers and a book of challenges with 10 adventures (HeroQuest base game required, sold separately). The game is infinitely replayable and thanks to a blank map, your own adventures can be invented. Friends can be rounded up to experience an epic night of play.
