Product Description

The legendary Black Widow in a brand new automobile series from COBI! A technically sophisticated set in 1:12 scale model is 38 cm long. The Opel Rekord C sports car was released under the original Opel brand licence. The set was designed with 2,078 elements. The model is characterised by the use of a variety of only high-quality prints! We have completely dispensed with stickers. Especially for the needs of such large sets, new elements were developed that offer additional functionalities. Movable steering wheel with which you can turn the wheels, hinges to open doors, body elements and panels. A brick-mapped engine is located under the tilting bonnet. Numerous details such as handles, lights and clocks form a coherent whole with the perfectly reproduced characteristic shape of this vehicle. The starting number 201 is printed on the body.

The model is perfect for collectors and lovers of classic motoring. Clear and intuitive instructions guiding through the steps and blocks in numbered bags ensure a smooth and satisfying building process.

Opel is a German manufacturer of passenger cars, sports cars and vans that has left a lasting mark on the history of the automotive industry with many successful models. A groundbreaking car for Opel, which exceeded one million units produced for the first time in the mid-size segment, was the REKORD. The most famous Opel Rekord "Black Widow" was created in secret! As part of the General Motors group, Opel was excluded from racing. Nevertheless, factory workers prepared a sports version of the Rekord with a 180 hp engine. Thanks to the yellow applications on black paint, it was nicknamed "Race Taxi" and "Black Widow". The car became a sensation and took part in spectacular races. Due to bans by GM management, the car was taken to Austria, where all traces were lost. Now, thanks to COBI building blocks, the automotive legend is back in a big way!
