### Product Description

The floor model shows a detailed replica of the T-55 in the modified version from 1970 with OMSH track links, in 1:35 scale. The included photo-etched parts make the T-55 look more realistic. The rims of the track rollers are reproduced in great detail and, like the armament, make it possible to realistically stage the standing model. Caution! Not suitable for children under 3 years. Danger of suffocation due to small parts.
