Product Description

The floor model is a replica of the Volvo FH4 Globetrotter. The Volvo FH is the highest expression of the renowned commercial and industrial vehicle brand in terms of development and technology. The modern and eye-catching design has been developed to optimise aerodynamics, minimise fuel consumption and ensure the highest standards of operating efficiency. The cabin has been developed to offer the highest active and passive safety standards. The vehicle is also equipped with advanced driver assistance and risk prevention systems.

There are several ways to customise the vehicle to respond quickly and precisely to any type of transport need. The Globetrotter cabin (CAB-HSLP) allows comfortable overnight accommodation for one or two people. In addition, its vertical structure ensures a large capacity and ability for additional compartments. The interior height is 205cm. With the advantage of advanced software solutions, the diesel engine of the VOLVO line has a lower impact on the environment and incorporates some of the best practices of modern technologies.

Caution: Not suitable for children under 36 months due to small parts which may be swallowed, risk of suffocation.
