from **20,25 EUR**

Item no.: 358683
shipping weight: 0.30 kg
Manufacturer: COBI

Product Description

The set was developed under licence by Relic Entertainment, the studio that created the sensational strategy game Company of Heroes 3, set in the reality of World War II. Bring the atmosphere of the game into the real world with licensed sets of COBI building blocks! The 8.8 cm Flak is a German anti-aircraft gun from the Second World War that successfully destroys ground targets. One of the most effective types of German weapons from World War II. In Company of Heroes 3, it is the terror of the Allied tanks. Contrast it with Sherman or Churchill from our collection!

The 1:35 scale cannon consists of 225 elements. The kit includes a rotating cannon with movable barrel, lots of sandbags to build a fortified post, crates, ammunition and tools. The set includes a refined Luftwaffe soldier figure of the gun crew, equipped with a helmet, a belt with a can and a canteen, and a Gewehr 43 rifle.

High quality prints that will not wear and reflect the details of the gun and soldier's uniform, including a very attractive print on the back of the soldier. Company of Heroes 3 is a real-time strategy (RTS) game developed by Relic Entertainment and published by Sega. In Company of Heroes 3, players take on the role of Allied forces during the invasion of Italy and the campaign in North Africa. The first two parts of the game, released in 2006 and 2013, were very successful and won the appreciation of many players! Surely, the latest, third part of Company of Heroes will become a must-have for all fans of RTS strategy as well as history and military enthusiasts.
