Product Description

The Horch 830 BL by De Gaulle is a set that brings with it a huge portion of history that you can build with COBI, block by block! Sensationally reproduced on a scale of 1:35, the car consists of 244 elements and complements the collection of COBI vintage cars. Bricks and figures depicting General Charles De Gaulle and the driver feature high-quality prints. Horch is a German automobile company that was founded in Zwickau (Saxony) at the beginning of the 20th century. From the beginning, Horch automobiles were characterised by high quality, modern technical solutions and great workmanship. In 1933, the luxury sedan "Horch 830" came onto the market and became an instant hit. This prompted the manufacturer to bring out new variants of the car. In 1935, the Horch 830 B with a more powerful engine and the Horch 830 BL with an extended body appeared. Caution: not suitable for children under 36 months.
