from 10,67 EUR

Item no.: 358713
shipping weight: 0.30 kg
Manufacturer: COBI

Product Description

The famous car released under the licence of the automobile giant from France is a piece of history that you will build block by block! The Citroen 15CV SIX was without a doubt the "king of the roads"! It came onto the market in 1938. Production resumed after the end of the war. In 1947, the 15CV SIX D model was introduced with a new engine. Up to 44,000 examples of this model were built until 1954. The Citroen Traction 15CV SIX D has been carefully reproduced with COBI terminal blocks. The car complements a large collection of historical vehicles in 1:35 scale. The model consists of 262 elements and has spinning wheels and a door that can be opened. The set contains only high-quality prints that do not wear out even with intensive use. The prints give the car an even more historical dimension. The whole thing is rounded off by a stone with the name of the car and a driver figure. The set is perfect for starting an adventure with Polish COBI building blocks. It is sure to please history buffs and car fans, and thanks to its simple and intuitive instructions, it will be a lot of fun to build.
