Product Description

A starter kit to get to know and love the Historical Collection by COBI!

In the box you will find everything you need to build the history brick by brick.

You can easily build a model of a German horse-drawn vehicle with field kitchen according to clear instructions with simple symbols. The set includes a figure of a cook from the period and accessories made from COBI blocks (a ladle, a mug, a canteen, a bottle, a bun). The field kitchen can be separated from the cart and horse. The set should be especially interesting for newcomers to adventures with COBI building blocks and all collectors of the Historical Collection series and diorama builders! The construction is also an ideal basis for building horse carts with artillery. GREAT WAR collection enthusiasts may also be interested in this set. Almost identical field kitchens were used during the First World War, and the included figure with an imprint on the back is very versatile!

Caution! Not suitable for children under 36 months. Legal minimum age: 7
