### Product Description

The Citroën DS 21 Pallas is a luxury passenger car launched in 1968, an improved and more exclusive version of the basic DS 21 model. This car was highly praised for its unique features and equipment. It was designed to offer even more comfort and luxury. It had a distinctive look that included chrome details, exclusive trim and a special "Pallas" badge. The interior was elegant and spacious, offering high-quality finishes and luxurious leather seats. In addition, the car had extensive equipment such as electric windows, air conditioning, leather steering wheel, automatic transmission, twin headlights in a common housing and cornering lights. Under the bonnet of the DS 21 Pallas was a 2.2-litre four-cylinder petrol engine with around 109 hp. The car was equipped with hydraulic suspension and disc brakes, which ensured excellent driving stability and comfort. The Citroën DS 21 Pallas was very popular with both private customers and diplomats. Its unique design, luxurious equipment and advanced technologies made it a symbol of prestige and sophistication. The DS 21 Pallas is still appreciated today by classic car enthusiasts for its unique aesthetics and innovative solutions. This model remains an icon of the Citroën brand and a testament to the excellence of French design and engineering. Developed under licence from Citroen, this clamp model successfully references the icon of the French automotive industry! Thanks to the large scale of 1:12 and the use of over 2,200 elements, we were able to faithfully reproduce the characteristic shape of this luxury car. Once built, the car reaches an impressive size of 40 cm in length. The model contains numerous details, enriched with high-quality, durable prints. We have developed completely new brick patterns especially for the construction of this set, such as the characteristic windscreen! Discover the beautiful interior, the dashboard, the working steering wheel. The car is equipped with opening doors and boot. There is a detailed engine modelled from bricks under the hatch. The model is ideal for collectors and classic car enthusiasts. Clear and intuitive instructions and blocks packed in numbered bags make the building process efficient and satisfying. build it!
