from **27,81 EUR**

Item no.: 358808
 shipping weight: 0.90 kg
 Manufacturer: COBI

Product Description

A very characteristic and beautiful colour version of the MIG-17 fighter from the Vietnam War. The curious will certainly notice that both the livery and the side number 0327 are no coincidence. A similar fighter can be seen on a tour of the floating museum on the aircraft carrier USS Intrepid in New York. The WSK PZL-Mielec Lim-5 (MiG-17) on display there looks just as good as our kit model!

The MIG-17 is a fighter aircraft manufactured in the Soviet Union that was used in the air forces of 40 countries around the world. It was also manufactured in Poland under the name LIM-5. The MIG-17 model aircraft was designed in 1:32 scale and consists of 575 high-quality elements. All markings, emblems and lettering on the model are imprints that do not wear out during use. The set has movable elements such as wheels and a hinged cabin in which we can place a great pilot figure. The camouflage reproduced from the blocks is particularly beautiful. The set includes a presentation stand with a sign with the name of the set and the nationality mark. Thanks to the intuitive instructions with clear symbols, assembly is easy. The aircraft is a must-have for all aviation, military and military technology fans. It is also a perfect addition to the Armed Forces, Vietnam War, Cold War and Korean War collections. In this series we have also released Polish LIM-1 and LIM-5 aircraft, Soviet MIG-15, Czechoslovak S-102 and MIG-17 in the version for the GDR and USSR. The kit was entirely manufactured in Poland in the European Union.

- 575 high quality elements manufactured in the EU by a company with over 20-
- years of tradition,
- meeting the safety standards for products for children,
- fully compatible with clamping blocks of other brands,
- blocks with imprint do not deform or fade during play or when exposed to temperature,
