COBI-5823 - MIG-17 "FRESCO", model, 568 parts, from 7 years old

from **36,28 EUR**

Item no.: 358798
shipping weight: 0.90 kg
Manufacturer: COBI

Product Description

The MIG-17 is a Soviet fighter aircraft that served in the air forces of 40 countries around the world, becoming one of the symbols of the "Cold War". The aircraft was built in 1949 and production soon began. It was a single-seat, single-engine, medium-wing aircraft with an all-metal duralumin structure and angled wings. A distinctive feature was the three wind deflectors located on each of the wings. At the front of the aircraft was an air intake to the engine, divided by a vertical partition into two ducts along the sides. The pilot's cabin was glazed and airtight, equipped with a retractable seat. Propulsion was a single turbojet engine located at the rear.

Permanent armament included two 23-mm NR-23 air cannons (80 rounds each) and one 37-mm N-37D (40 rounds). The aircraft could also carry bombs interchangeably with additional fuel tanks. This extremely popular and successful design has had many development versions. The MIG-17 under the name LIM-5 was also produced in Poland from 1956!

The MIG-17 model was designed in 1:32 scale and consists of 568 high-quality elements. All markings, emblems and lettering on the model are imprints that will not wear off during use. The set has movable elements such as wheels and a hinged cabin in which we can place a great pilot figure. The camouflage reproduced from the blocks is particularly beautiful. The set includes a presentation stand with a sign with the name of the set and the nationality mark. Thanks to the intuitive instructions with clear symbols, assembly is easy. The aircraft is a must-have for all aviation, military and military technology fans. It is also a perfect addition to the Armed Forces, Vietnam War, Cold War and Korean War collections. In this series we have also released Polish LIM-1 and LIM-5 aircraft, Soviet MIG-15, Czechoslovak S-102 and MIG-17 for Vietnam, East Germany and the USSR. The building block set was entirely manufactured in Poland in the European Union.

- 568 high quality elements
- manufactured in the EU by a company with over 20 years of tradition,
- meeting the safety standards for products for children
- fully compatible with clamp building blocks of other brands,
- blocks with imprint do not deform or fade during play or when exposed to temperature,
- clear and intuitive instructions based on drawings and symbols,
- 100% prints, no stickers,
- block display stand,
- nameplate,
- pilot figure

Caution. Not suitable for children under 3 years, as small parts may be swallowed. Danger of suffocation!

- Model dimensions (length x width x height): 360 mm x 300 mm x 110 mm
- Height from base - 150mm
- Scale: 1:32
- Number of parts: 568
- Minifigures: 1
- Age Group: 7+
