Product Description

The Focke-Wulf Fw190 A-3 is a single-engine, single-seat German fighter aircraft from World War II. The A-3 version was produced from spring 1942 and was distinguished by the use of the more powerful BMW 801 D-2 engine and the first use of complementary conversion kits for underfloor armament.

The Focke-Wulf Fw190 A-3 aircraft model built from COBI building blocks is a faithfully reproduced 1:32 scale low-wing aircraft from World War II. The model features many movable elements such as a rotating propeller, movable wing ailerons or wheels with rubber tyres that can be folded into a horizontal position. Reproduced details and historic colours of the aircraft. The cockpit can be opened to place the German ace-inspired pilot figure in the seat. Thanks to a special presentation stand with a sign with the name of the aircraft and a place to put the figure, the whole set looks great! The model uses durable prints and historical markings.

The set adds to the collection of WWII aircraft for history buffs, military enthusiasts and lovers of top quality block modelling!
