from **89,39 EUR**

Item no.: 358841  
shipping weight: 3.20 kg  
Manufacturer: COBI

### Product Description

The Maserati MC20 is the latest model in the portfolio of the Italian manufacturer of luxury sports and racing cars based in Bologna. Maserati is part of the Stellantis Group, which was created in 2021 from the merger of Fiat Chrysler Automobiles with the French company Groupe PSA.

The name MC20 stands for Maserati Corse (Italian for racing), while the number 20 stands for the year 2020, when the car was unveiled to the public. The Maserati MC20 has all the characteristics of a sports car. It is low, wide and aerodynamic. The door, which goes up when opened, attracts all attention. It is powered by a 630 hp V6 engine that sits centrally behind the driver's back. The top speed of this super sports car is over 325 km/h! The Maserati MC20 was released under licence from the Italian sports car manufacturer Maserati. Developed on a sensational 1:12 scale, the building block model measures a full 39 cm in length and consists of 2,269 elements. Opening doors, swivelling wheels that can be turned with functioning steering, a built engine and elements specially designed for this model are just some of the benefits of this set. Prints and carefully selected elements were used to recreate the style elements and interior. Now this modern supercar can be yours! Thanks to the clear and intuitive instructions, assembly is easy and no problem even for slightly less advanced builders. The sensationally designed car is sure to delight fans of modern motoring. The sporty shape will not let you pass indifferently by the model that can become a decoration of your home, room or office. Express your passion with COBI building blocks!
