from **35,31 EUR**

Item no.: 358824
shipping weight: 0.90 kg
Manufacturer: COBI

Product Description

The F/A-18C Hornet™ is a unique multi-role combat model in Swiss colours. The aircraft has been produced in a 1:48 scale model from 540 COBI building blocks. The set includes high quality prints that mimic the paint scheme of the original aircraft. The model was equipped with a folding landing gear and rotating wheels. There is a large arsenal of weapons under the wings. You can place a special pilot block in the cabin. The set includes a block stand and a sign with the name of the aircraft. This exclusive, licensed set is aimed at all - regardless of age - aviation and military fans. The aircraft looks equally attractive in a serious office and in a youth room.

Boeing F / A-18C Hornet™ - is an American supersonic multi-role aircraft of the US Navy, which has been in production since 1978. It is one of the most modern aircraft in the US Navy. The F-18 aircraft replaced the French Mirage IIIS fighters in Switzerland. In 1992, a contract was signed for the delivery of 34 units. 26 C single-seaters and 8 D double-seaters were ordered, with only the first two aircraft being built entirely in the USA. The rest were built at RUAG's Swiss facilities in Emmen.

- 540 high-quality elements
- manufactured in the EU by a company with more than 20 years of tradition
- meeting safety standards for children's products,
- fully compatible with clamping blocks of other brands,
