from **27,76 EUR**

Item no.: 358837
shipping weight: 0.70 kg
Manufacturer: COBI

Product Description

The BAE Hawk T1 is a British trainer aircraft that is also used as a light fighter. It is equipped with Red Arrows, the famous aerobatic team of the Royal Air Force of Great Britain. The Red Arrows emblem features 9 aircraft in the "Diamond" formation that has become the team's trademark. The Red Arrows were founded in 1964 and officially represent the RAF. Thanks to the official collaboration with the RAF, an exceptional collector's model has been created!

The BAE Hawk T1 aircraft in the characteristic red colours of the Red Arrows Aerobatic Team has been constructed in 1/48th scale from 389 elements and has a wingspan of 19.5 cm! The model offers access to the hinged cockpit and has rotating wheels, which can also be optionally removed for display on a block stand. Thanks to durable prints, the details of the Red Arrows aircraft have been reproduced. The set includes simplified replacement pilot figures that can be placed in the cockpit. The set includes a plate with the name of the model and the Red Arrows emblem as well as a presentation stand to be built. The set completes the collection of aircraft released as part of the Armed Forces series and is designed for aviation enthusiasts, military enthusiasts and lovers of the highest quality block models!

Caution! Not suitable for children under 36 months. Legal minimum age: 8

- 389 high quality elements,
