Product Description

The Lockheed C-130 Hercules is an American four-engine turboprop military transport aircraft. It has been continuously developed and produced since 1956. Its notoriety is evidenced by the fact that it has been used in over 50 countries around the world. Hercules transport military equipment, goods, wounded and soldiers over medium distances and can use unpaved runways. They are very versatile machines that can perform specialised tasks.

The C-130 Hercules military transport aircraft, released under licence from Lockheed Martin, is designed in 1:61 scale with 602 elements and has a wingspan of up to 70.5 cm! The model features many movable elements such as rotating propellers, movable wing ailerons, an opening hatch or wheels with rubber tyres. Access to the cockpit and the cargo hold has been provided. Thanks to durable prints, the details of the aircraft developed in the colours of the USA have been reproduced. The set includes a pilot figure that can be placed in the cockpit. The set includes a sign with the name of the model. The set completes the collection of aircraft released as part of the Armed Forces collection and is intended for lovers of history, military technology and lovers of the highest quality block models!
