Product Description

The floor model is a 1:72 scale replica of the F-35B Lightning II single-seat aircraft. The JSF Joint Strike Fighter programme was a development project to create a new 5th generation all-weather, multi-role combat aircraft to replace the existing American and NATO strike fighter force. The aerospace team, led by aircraft manufacturer Lockheed Martin, developed the single-seat, single-engine F-35 Lightning II. This fighter uses stealth technology and features trapezoidal wings and the application of the most advanced high-tech systems, materials and avionics. The F-35 Lightning II is already a milestone in the world of 21st century military aviation due to its operational flexibility, advanced on-board technology, innovative design and performance features, among other things. - Detailed 1/72nd scale model kit. - Italeri's high quality kit requires self-assembly. - Self-assembly is guided with the help of step-by-step or illustrated assembly instructions. The assembly instructions are of course included in the delivery. - Based on the assembly instructions, the precisely fitting individual parts must be assembled. The parts can be painted according to your own ideas. - Tools, glue and paint are not included in the scope of delivery of the plastic kit. These must be purchased as an option. Caution: Not suitable for children under 36 months. Choking hazard due to small parts.

- Contents: kit, instructions, decor- Size of the model: 21.7 cm- Age rating: 14 years and over
