shipping weight: 0.50 kg
Manufacturer: ITALERI

Product Description

This large minesweeper helicopter is in service with various special forces of the U.S. Navy and the Japanese Self-Defence Forces. The Sea Dragon is a more powerful, three-engine version of the twin-engine CH-53 "Stallion" developed for the U.S. Marine Corps in the 1960s. Some CH-53 helicopters specially equipped for rescue missions were used by the U.S. Air Force. Powerful engines enable the transport and deployment of heavy mine detection systems, which are lowered into the sea from the helicopter mounted on a skid. - Detailed model kit in the scale of 1:72. The floor model has dimensions: Length: 32,0 cm- The high quality kit from Italeri has to be assembled by yourself. - The self-assembly is accompanied by step-by-step or illustrated assembly instructions. The assembly instructions are of course included in the delivery. - Based on the assembly instructions, the precisely fitting individual parts must be assembled. The parts can be painted according to your own ideas. - Tools, glue and paint are not included in the scope of delivery of the plastic kit. These must be purchased as an option. Caution: Not suitable for children under 36 months. Choking hazard due to small parts.

- Contents: kit, instructions, decor- Age rating: 14 years and over
