Product Description

Pathfinder - Saga 5: Queen of Thorns (EN), 400 pages

In the forest kingdom of Kyonin, the elven people live far from the prying eyes of other races. Only a few with impure blood are allowed to cross the nation's borders. So it is a special honour for the half-elf Count Varian Jeggare and his devil-blooded bodyguard Radovan to be allowed in. But the elven kingdom is not exactly full of sunshine: demons stir in the depths and a fine web of political intrigue threatens to engulf the two travellers. While searching for a missing druid, Varian and a group of eccentric elven adventurers must shed light on dark secrets that have been forgotten for generations - including the mystery of Varian's own past.

- Language: German
